

Training Following the Conference

There are multiple 2-day SAP Configurator workshops following the CWG conference in Cologne, Germany as part of the commitment to train and educate CWG members.

Each workshop is held the two days immediately following the 2011 European CWG Conference [beginning Thursday] and will not interfere with the CWG Conference. The CWG Conference fee does *not include* the extra cost of the training workshops.
Training is not sponsored by the CWG.
